SUMMARY

Informatics Engineering student at Universitas Sebelas Maret (UNS) with a strong passion for Web Development, specializing in B

EDUCATION

Universitas Sebelas Maret (UNS) - Associate Degree in Informatics Engineering (IPK: 3.65 / 4.00) [2024 - Present]

EXPERIENCE

- Full Stack Developer Intern | PT. Sarana Insan Muda Selaras (Life Media) [Feb 2026 - Jul 2026]
- Architected backend system & database schema utilizing Prisma ORM for C-Track employee monitoring app.
 - Built RESTful APIs using TypeScript/Node.js and real-time chat via WebSocket (Socket.io).
 - Engineered mass Push Notification architecture via Expo Server SDK & FCM V1 API.
 - Deployed backend API to Linux VPS using PM2 & resolved transport-layer issues.
 - Integrated React Native frontend for zero-delay location updates of field workers.

PROJECT EXPERIENCES

1. Sewa Alat Band - Equipment Rental System (Laravel, MySQL, PHP) [Sep 2025 - Dec 2025]
 - Web-based rental info system with Midtrans API Sandbox integration & automatic price calculation.
2. Shinta Bakery - E-Commerce & Catering Platform (Vue.js, Inertia.js, Laravel) [Sep 2025 - Dec 2025]
 - 12+ interconnected tables ERD, custom Laravel Middleware, dynamic booking slot management.
3. E-Mailkomp - Member Assessment Management (Laravel, Vue.js, Inertia.js) [Okt 2025 - Nov 2025]
 - Scoring calculation algorithm, responsive Vue.js UI, deployed to CWPpanel hosting.

SKILLS

- Languages: PHP, JavaScript (ES6+), HTML5, CSS3, TypeScript
- Frameworks: Node.js, Express.js, Laravel, React Native, React.js, Vue.js, Tailwind CSS, Bootstrap, Socket.io, Expo
- Database & Tools: MySQL, Prisma ORM, Git/GitHub, WebSockets, Swagger, FCM V1, EAS, Jira

CERTIFICATES

- AWS Academy Graduate - Cloud Developing - Training Badge (AWS, July 2026)
- HTML Essentials (Cisco, December 2025)
